

X-Lite Tutorial

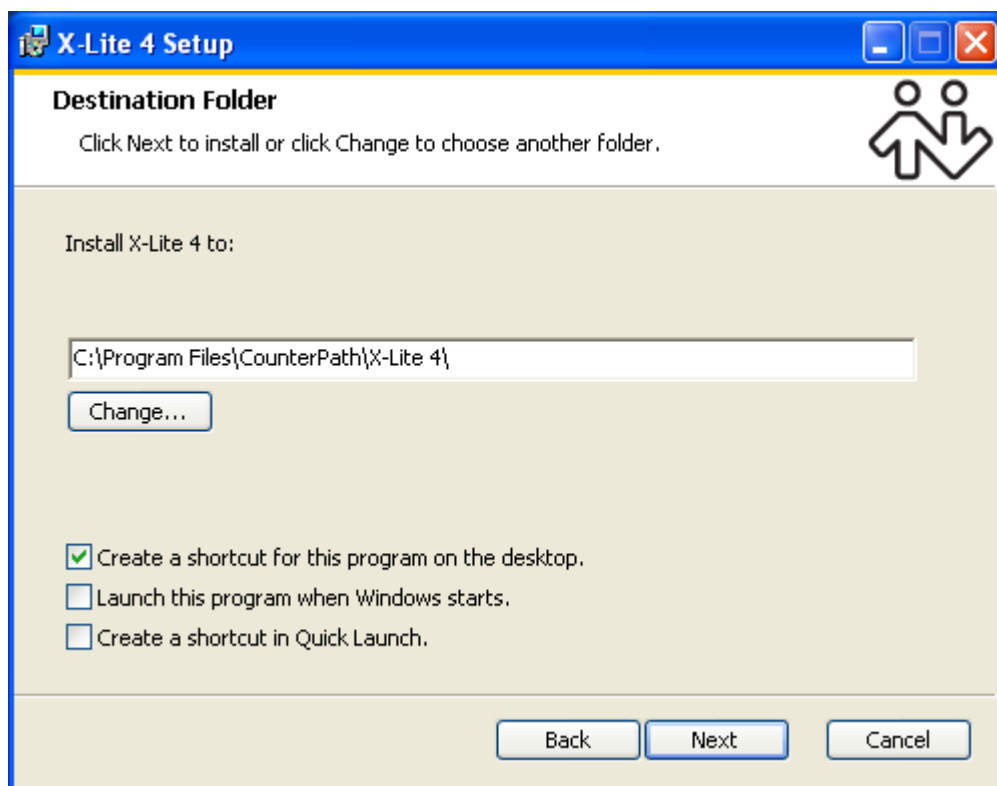

1. You can download the X-lite installation file from [here](#) Once finished. Double click on the install file. You should see a window like this:

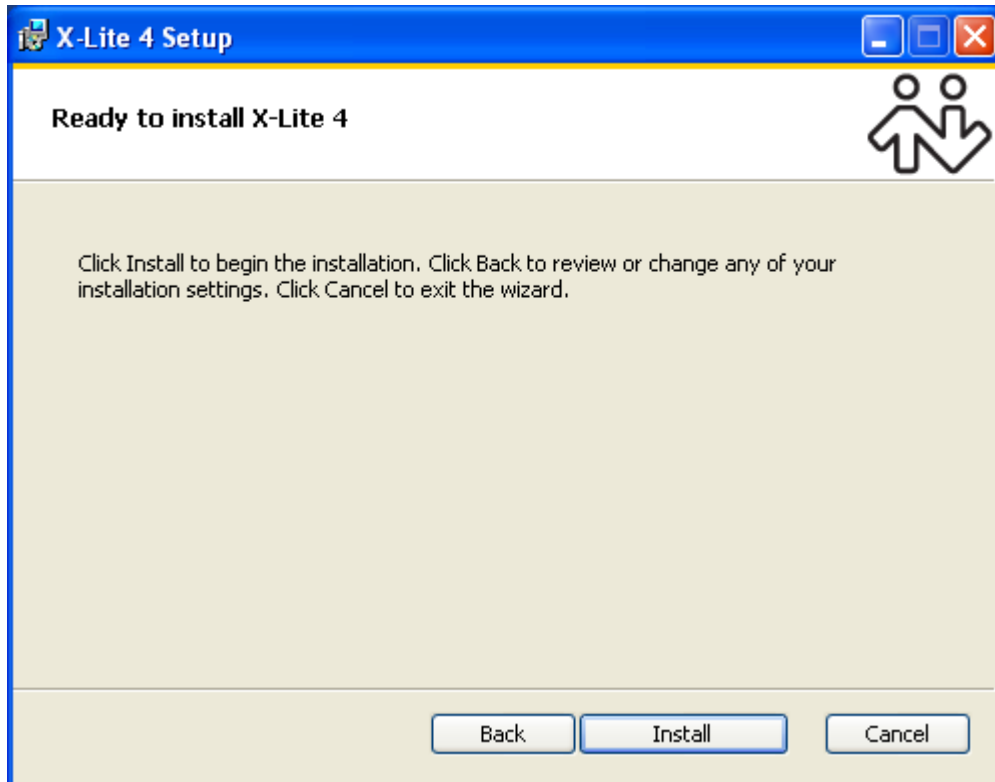

2. Click the Next button and you will see the License Agreement. Accept the Agreement and press the Next button.

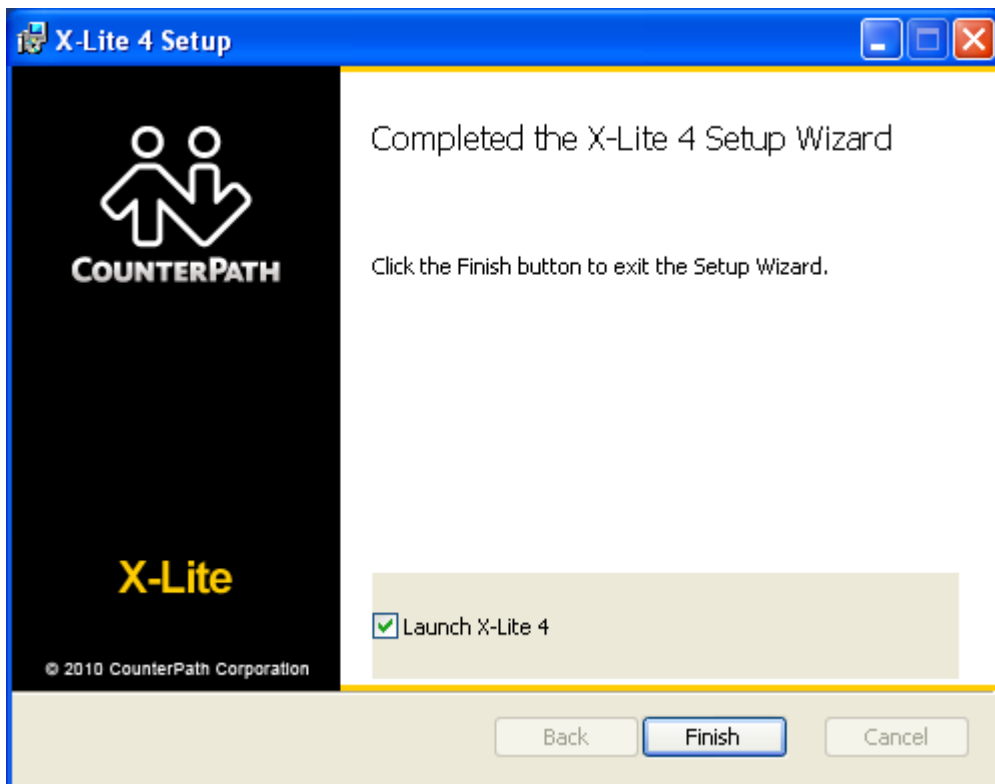

3. Select the location to install to and select whether or not to create a desktop or quick launch icon and press the Next button.

4. When prompted click the Install button.

5. After the program installs press the Finish button and reboot your PC.

6. The program will launch. Now it's time to configure X-lite for use with VICIdial.

7. On the phone, click the Softphone tab and select Account Settings.
